ENTAMOEBA HISTOLYTICA RAPID TEST

FAST-TRACK YOUR GASTROINTESTINAL DIAGNOSTICS

Entamoeba histolytica is an anaerobic parasitic amoebozoan, part of the genus Entamoeba. Predominantly infecting humans and other primates causing amoebiasis, *E. histolyticais* estimated to infect about 50 million people worldwide. Previously, it was thought that 10% of the world population was infected, but these figures predate the recognition that at least 90% of these infections were due to a second species, E. dispar. Mammals such as dogs and cats can become infected transiently, but are not thought to contribute significantly to transmission. *E. histolytica*, as its name suggests (histolytic = tissue destroying), ispathogenic; infection can be asymptomatic or can lead toamoebic dysenteryor amoebicliver abscess.

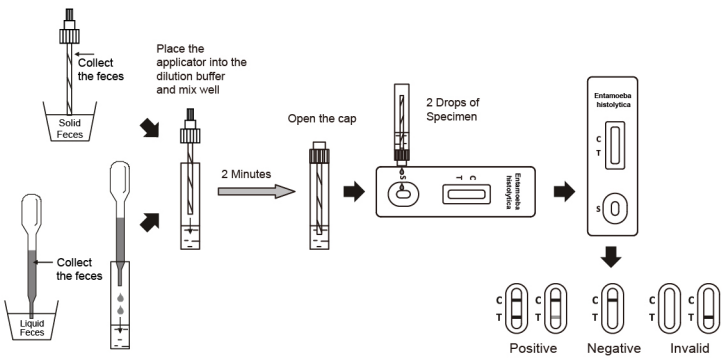

Ordering Information

Cat. No.: SIC-RDT-EH-202060
Product: *Entamoeba histolytica* Rapid Test
Specimen: Feces
Format: Cassette
Kit Size: 10 T

Product Advantages

- ✓ Fast results in **5** minutes
- ✓ Easy visually interpretation
- ✓ High accuracy

Convenient Procedure

Sicuro Bioengineering Ltd.
Address: 19 East West Road, Port Harcourt - Nigeria
Email: info@sicurobio.com
