FSH RAPID TEST

EMPOWER YOUR MENOPAUSE JOURNEY WITH RAPID FSH SCREENING

Menopause is the permanent cessation of menstruation but is usually not scientifically diagnosed until one full year after a woman's menstrual periods have stopped. The period leading up to menopause, and the 12 months following, is known as perimenopause. Many women experience symptoms during this time including hot flashes, irregular menstrual cycles, sleep disorders, vaginal dryness, hair loss, anxiety and mood swings, short-term memory loss and fatigue. The onset of perimenopause is caused by changes in the levels of hormones in the female body that regulate the menstrual cycle. As the body produces less and less estrogen, it increases its production of FSH, which normally regulates the development of a female's eggs.

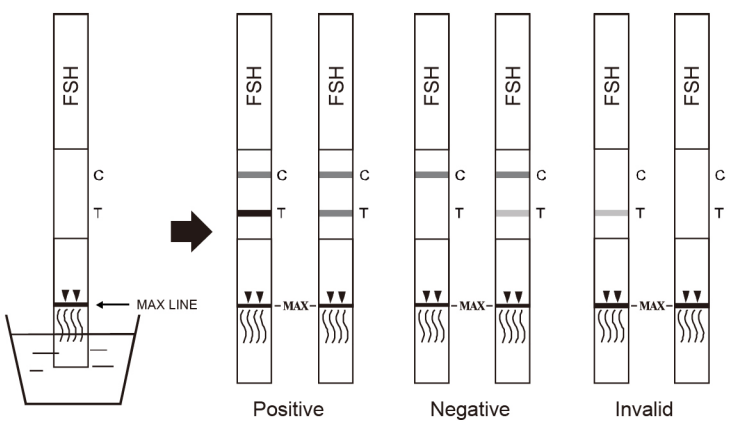

Ordering Information

Cat. No.: SIC-RDT-FSH-202086
Product: FSH Rapid Test
Specimen: Urine
Format: Dipstick
Kit Size: 50 T

Product Advantages

- ✓ Fast results in **3** minutes
- ✓ Easy visual interpretation
- ✓ High accuracy

Convenient Procedure

Sicuro Bioengineering Ltd.
Address: 19 East West Road, Port Harcourt - Nigeria
Email: info@sicurobio.com
Website: www.sicurobio.com
